FATTY ALCOHOLS

Fatty alcohols from CREMER OLEO are exclusively of natural origin and are produced from 100% vegetable oils. Our offer includes the long-chain fatty alcohols C16, C18, their blends C16/18, Behenyl Alcohol C18/22, C22/70 and Lauryl Myristyl Alcohol C12-14.

The chemical properties of CREMER OLEO fatty alcohols make them ideal for **applications in cosmetics and personal care.** They are typically used as ingredients in **shower gels, shampoos, creams and lotions**, for example as emulsion stabilizers, consistency enhancers and to increase the viscosity of a formulation. In the industrial sector, the **paper industry** uses fatty alcohols from CREMER OLEO.
